

Tribo-Chemie GmbH - Euroguss 2020

**The whole Tribo-Chemie team would like to thank all their visitors.
They have made the fair a successful event!**

At this year's EUROGUSS 2020 (14. - 16.01.2020) about 750 companies presented themselves to the trade visitors. Among them was the company Tribo-Chemie GmbH, which exhibited its product portfolio including new developments in the field of die casting on a stand area of almost 60 m².

"Due to the predominantly restrained mood on the market at the moment, we went to EUROGUSS with some reservations. It is therefore all the more pleasing to be able to draw a positive balance after successful trade fair days", sums up Felix Bastian, Managing Director of Tribo-Chemie GmbH. "Both the number of visitors and the quality of the contacts clearly exceeded our original expectations. EUROGUSS has developed very well in recent years and has established itself as our leading trade fair in the die casting sector. Here we reach exactly the desired target group".

Compared to EUROGUSS 2018, Tribo-Chemie GmbH had considerably enlarged its stand at this year's fair. This decision proved to be right after three days of the fair, the visitor frequency was pleasing and existing customer relationships could be strengthened and many new contacts could be made.

Not only the most varied release agents aroused lively interest among the visitors, but above all the piston lubricants (oils, granules, etc.) and new foundry auxiliaries such as channel/spoon coatings and pastes.
